1 Introduction

This document provides instruction on how to transition an application that is redriving or retiming an AC-coupled HDMI signal to transition-minimized differential signaling (TMDS) using the SNx5DP159RSB device, to an application that is redriving an AC-coupled HDMI signal to TMDS using the TDP158RSB device, and the other way around. The next sections describe the differences between the SNx5DP159RSB and TDP158RSB devices. To transition from one device to the other just requires following the changes in pins, registers, and the PCB.

2 Functional Changes

This section lists the functional changes.

- SNx5DP159RSB – Operates in Redriver mode up to 3 Gbps or Retimer Mode at all speeds. Capable of reporting a DP-HDMI adaptor ID
- TDP158RSB – Operates in Redriver Only mode – all speeds. No DP-HDMI adaptor ID reporting.

2.1 Power

Table 1 lists the power changes.

Table 1. Power Changes

| Parameter | SNx5DP159RSB | TDP158RSB |
|-------------------------------------|-------------------------|-------------------------|
| Typical active power at 6 Gbps (mW) | 435 mW (600 mW maximum) | 200 mW (350 mW maximum) |
| Typical standby or low power (uW) | 10000 uW | 8000 uW |

2.2 Pin Function Changes

Table 2 lists the pin function changes.

Table 2. Pin Function Changes

| Pin | SNx5DP159RSB | TDP158RSB |
|--------|---|--|
| Pin 13 | SCL_CTL: I ² C clock signal NOTE: When I2C_EN/PIN = Low, pin strapping takes priority and those functions cannot be changed by I ² C. | SCL_CTL/SWAP: When I2C_EN = High: I ² C clock signal. When I2C_EN = Low: Lane SWAP (HDMI mode only) <ul style="list-style-type: none"> • SWAP = L: Normal operation • SWAP = H: Lane swap |
| Pin 14 | SDA_CTL: I ² C data signal NOTE: When I2C_EN/PIN = Low, pin strapping takes priority and those functions cannot be changed by I ² C. | SDA_CTL/PRE: When I2C_EN = High: I ² C data signal When I2C_EN = Low: Pre-emphasis <ul style="list-style-type: none"> • DE = L: 0 dB • DE = H: 3.5 dB |

IMPORTANT NOTICE FOR TI DESIGN INFORMATION AND RESOURCES

Texas Instruments Incorporated ("TI") technical, application or other design advice, services or information, including, but not limited to, reference designs and materials relating to evaluation modules, (collectively, "TI Resources") are intended to assist designers who are developing applications that incorporate TI products; by downloading, accessing or using any particular TI Resource in any way, you (individually or, if you are acting on behalf of a company, your company) agree to use it solely for this purpose and subject to the terms of this Notice.

TI's provision of TI Resources does not expand or otherwise alter TI's applicable published warranties or warranty disclaimers for TI products, and no additional obligations or liabilities arise from TI providing such TI Resources. TI reserves the right to make corrections, enhancements, improvements and other changes to its TI Resources.

You understand and agree that you remain responsible for using your independent analysis, evaluation and judgment in designing your applications and that you have full and exclusive responsibility to assure the safety of your applications and compliance of your applications (and of all TI products used in or for your applications) with all applicable regulations, laws and other applicable requirements. You represent that, with respect to your applications, you have all the necessary expertise to create and implement safeguards that (1) anticipate dangerous consequences of failures, (2) monitor failures and their consequences, and (3) lessen the likelihood of failures that might cause harm and take appropriate actions. You agree that prior to using or distributing any applications that include TI products, you will thoroughly test such applications and the functionality of such TI products as used in such applications. TI has not conducted any testing other than that specifically described in the published documentation for a particular TI Resource.

You are authorized to use, copy and modify any individual TI Resource only in connection with the development of applications that include the TI product(s) identified in such TI Resource. NO OTHER LICENSE, EXPRESS OR IMPLIED, BY ESTOPPEL OR OTHERWISE TO ANY OTHER TI INTELLECTUAL PROPERTY RIGHT, AND NO LICENSE TO ANY TECHNOLOGY OR INTELLECTUAL PROPERTY RIGHT OF TI OR ANY THIRD PARTY IS GRANTED HEREIN, including but not limited to any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information regarding or referencing third-party products or services does not constitute a license to use such products or services, or a warranty or endorsement thereof. Use of TI Resources may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

TI RESOURCES ARE PROVIDED "AS IS" AND WITH ALL FAULTS. TI DISCLAIMS ALL OTHER WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED, REGARDING TI RESOURCES OR USE THEREOF, INCLUDING BUT NOT LIMITED TO ACCURACY OR COMPLETENESS, TITLE, ANY EPIDEMIC FAILURE WARRANTY AND ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT OF ANY THIRD PARTY INTELLECTUAL PROPERTY RIGHTS.

TI SHALL NOT BE LIABLE FOR AND SHALL NOT DEFEND OR INDEMNIFY YOU AGAINST ANY CLAIM, INCLUDING BUT NOT LIMITED TO ANY INFRINGEMENT CLAIM THAT RELATES TO OR IS BASED ON ANY COMBINATION OF PRODUCTS EVEN IF DESCRIBED IN TI RESOURCES OR OTHERWISE. IN NO EVENT SHALL TI BE LIABLE FOR ANY ACTUAL, DIRECT, SPECIAL, COLLATERAL, INDIRECT, PUNITIVE, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES IN CONNECTION WITH OR ARISING OUT OF TI RESOURCES OR USE THEREOF, AND REGARDLESS OF WHETHER TI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

You agree to fully indemnify TI and its representatives against any damages, costs, losses, and/or liabilities arising out of your non-compliance with the terms and provisions of this Notice.

This Notice applies to TI Resources. Additional terms apply to the use and purchase of certain types of materials, TI products and services. These include; without limitation, TI's standard terms for semiconductor products (<http://www.ti.com/sc/docs/stdterms.htm>), [evaluation modules](#), and [samples](http://www.ti.com/sc/docs/sampterm.htm) (<http://www.ti.com/sc/docs/sampterm.htm>).
